PROMOTING THE HEALTH OF
WOMEN AND NEWBORN

Caring through Sharing

The 2016 AWHONN Oklahoma *Caring through Sharing* organization is

Keynote Speakers

LISA A. MILLER, CNM, JD.

Founder of Perinatal Risk Management and Education Services, Lisa Miller is a certified nurse-midwife with more than 30 years of clinical experience. As a midwife and a lawyer, she has a unique understanding of the impact of law on medicine and nursing. Lisa served as an Assistant Professor in Obstetrics and Gynecology at Northwestern University Medical School and is co-author of three textbooks on electronic fetal monitoring. Today, much of her time is spent teaching an evidence- and consensus-based approach to fetal monitoring based on the NICHD nomenclature, and educating physicians, midwives, and nurses on cognitive bias, medical and nursing error, as well as safety-based approaches to normalize labor. She is an active member of the Association of Woman's Health, Obstetric and Neonatal Nurses (AWHONN) and will serve on the board of directors for the 2016-2018 term. In addition to her work with AWHONN, Ms. Miller is a member of the American Congress of Obstetricians and Gynecologists (ACOG) and has worked with state and national ACOG memberships in fetal monitoring education.

LISA DeLong, RN

A registered nurse, author, bereavement facilitator, nationally known speaker and advocate for the needs of patients and their families. Lisa's firstborn son died at the age of 15 when he relapsed after a ten-year remission from leukemia. Six years later, her youngest son, was also diagnosed with the same kind of non-familial leukemia. He has completed treatments and is now a healthy teenager! Lisa also has two courageous daughters who were bookended by their brothers. As a nurse, Lisa has truly experienced life on both sides of the curtain—that of patient and caregiver. Lisa brings a strong knowledge base of healthcare from both the frontline and personal patient perspective. Lisa's 30 years of nursing experience has truly been a womb to tomb experience. She began as a nurse's aid in her teens, a postpartum and newborn nursery nurse while raising her family, and learned pediatric oncology while caring for her sons. Lisa intimately understands the sacred nature of healthcare, its trials and tribulations and the transformational joy, which accompanies purpose driven, worthwhile work.
