Oklahoma Mothers and Newborns affected by Opioids (OMNO)

Pilot Project FAQs

**Why are we doing this?** In response to the opioid epidemic, many hospitals and providers are addressing the effects of opioids on mothers and newborns. This collaborative is an attempt to provide structure and guidance to that work.

**When does it start?** Official kick-off of the pilot sites will begin in early 2020. An in-person kick-off meeting will take place in January or February (TBA). Activities will begin shortly after the kick-off.

**What is to be expected of the hospital?**

1. Developing policies and protocols
2. Staff Education
3. Data Submission via the AIM Data Portal

**Data to be Collected by Hospital:**

**Process Measures (entered quarterly)**
- Opioid Exposed Newborns Discharged Receiving Mothers Milk
- Opioid Exposed Newborns Discharged to Mother
- Pregnant Women with OUD Receiving MAT/Behavioral Treatment
- Universal Screening for OUD at Prenatal Care Sites

**Structure Measures (One-time entry of date of structure implementation)**
- Universal Screening for OUD Policy
- Standardized Pain Management Prescription Practices
- Opioid-specific Prescribing Guidelines

**Data already submitted by state agencies:**

**Outcome Measures**
- Average length of stay for newborns with Neonatal Abstinence Syndrome (NAS)
- Severe Maternal Morbidity (excluding transfusion codes) among All Delivering Women
- Severe Maternal Morbidity among All Delivering Women

**Staff Education**

Participating hospitals will have free, unlimited access to the [VON Neonatal Abstinence Syndrome Curriculum](https://www.vonnetwork.org) via an online learning management system. This curriculum consists of 18 microlessons and provides more than 6 hours of CME or CNE.

**Policies and Protocols**

Sample policies and protocols as well as other tools and materials will be available in the OMNO toolkit, released at the annual OPQIC Summit in September 2019. Links to materials will be available online at [opqic.org](http://opqic.org)

For more information and to register for OMNO, go to [opqic.org/omno](http://opqic.org/omno)
