

AWHONN Post-Birth Warnings Signs, Save Your Life Handout: Patient Evaluation Research

Call for Applications

Would you like to collaborate with AWHONN on a research study to seek input from the patient's perspective and feedback about the Save your Life handout (SYLH) and its benefits as a resource for discharge education? We are looking for a Principal Investigator (PI) and Co-Investigator (Co-I). The following criteria are required to apply:

- The applicants must be full members of AWHONN and in good standing.
- Have administrative support from their leadership team to participate in a collaborative research study with AWHONN
- Have the ability to apply for IRB approval at your site or the ability to complete IRB forms to submit to an external site.
- The applicant must have access to a hospital that successfully implemented the Post-Birth Warning Signs (PBWS) program at their site
- The PI and Co-I should have experience designing, implementing, and analyzing qualitative research design and methodology.
 - The PI and Co-I will commit to following the outlined research project timelines in collaboration with the AWHONN research team.
 - Attend bi-monthly or monthly zoom meetings throughout the established timeline.
 - The timeline for this project is approximately 10 months which includes: onboarding, identification, recruitment of patients, and possible revision of the AWHONN PBWS SYL Handout.

Applications are due no later than August 19th. Application link- <https://awhonn.wufoo.com/forms/ml1qezjy04srrpe/>
