Providing Excellence in Perinatal Care

So many measures . . .

- There are many measures available in the perinatal world
- How do we decide which ones are the most important?

2025 TJC and CMS Requirements

	CMS IQR	TJC ORYX	TJC ACPC
PC-01: Elective Delivery	<i>RETIRED CY 2024</i>	Optional	Required
PC-02: Cesarean Birth	Mandatory	eCQM Required	Required with thresholds
PC-05: Exclusive Human Milk Feeding	<i>RETIRED CY 2024</i>	Optional	Required
PC-06: Sudden Infant Complications	---	Either chart or eCQM required	Required with thresholds
PC-07: Severe Obstetric Complications	Mandatory	eCQM required	---

CMS IPPS 2024 Final Rule, Issued August 2024

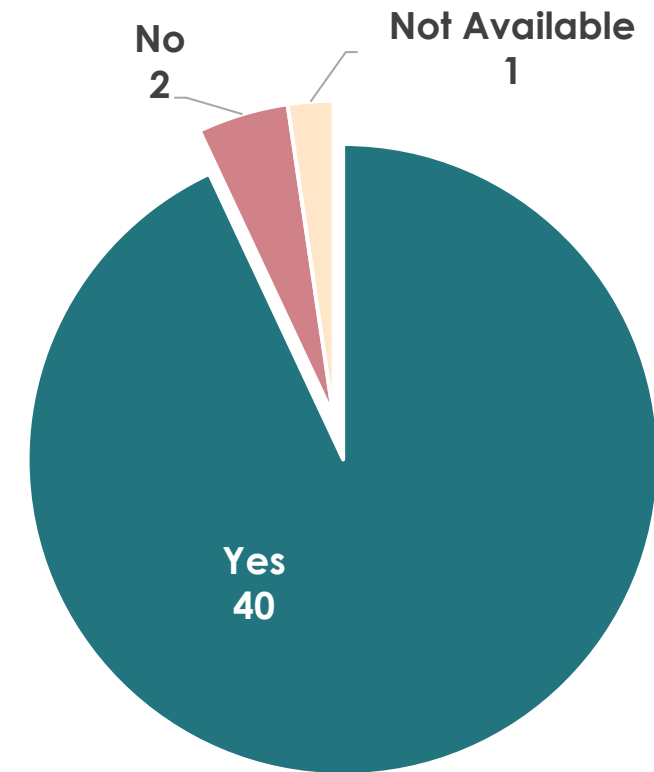

TJC ORYX 2025 Performance Measure Reporting Requirements, issued October 2024

CMS Structural Measure 7

Question: Does your hospital or health system participate in a Statewide and/or National Perinatal Quality Improvement Collaborative Program aimed at improving maternal outcomes during inpatient labor, delivery and post-partum care, **AND** has implemented patient safety practices or bundles related to maternal morbidity to address complications, **including**, but not limited to, **hemorrhage, severe hypertension/preeclampsia or sepsis?**

Answer Choices: (A) Yes, (B) No, or (C) N/A (our hospital does not provide inpatient labor/delivery care)

SM-7: Q1-Q4 2023

CMS Announces New Policies to Reduce Maternal Mortality, Increase Access to Care, and Advance Health Equity

[Ambulatory surgical centers](#) [Hospitals](#)

Share

The Centers for Medicare & Medicaid Services (CMS) announced today new baseline health and safety requirements for hospitals and Critical Access Hospitals (CAHs) providing obstetrical (OB) services to make pregnancy, childbirth, and postpartum care safer. CMS is also removing barriers to expand access to care for those formerly incarcerated and others in underserved communities. These policies are included in the calendar year (CY) 2025 Hospital Outpatient Prospective Payment System (OPPS) and Ambulatory Surgical Center (ASC) final rule released today, which also updates payment rates for hospital outpatient and ASC services for CY 2025 by 2.9% (3.4% market basket, less 0.5 percentage points for multifactor productivity). These payment updates are estimated to result in an additional \$2.2 billion in CY 2025 OPPS payments for hospitals compared to CY 2024.

CY 2025 OPPS Rule OB Implications

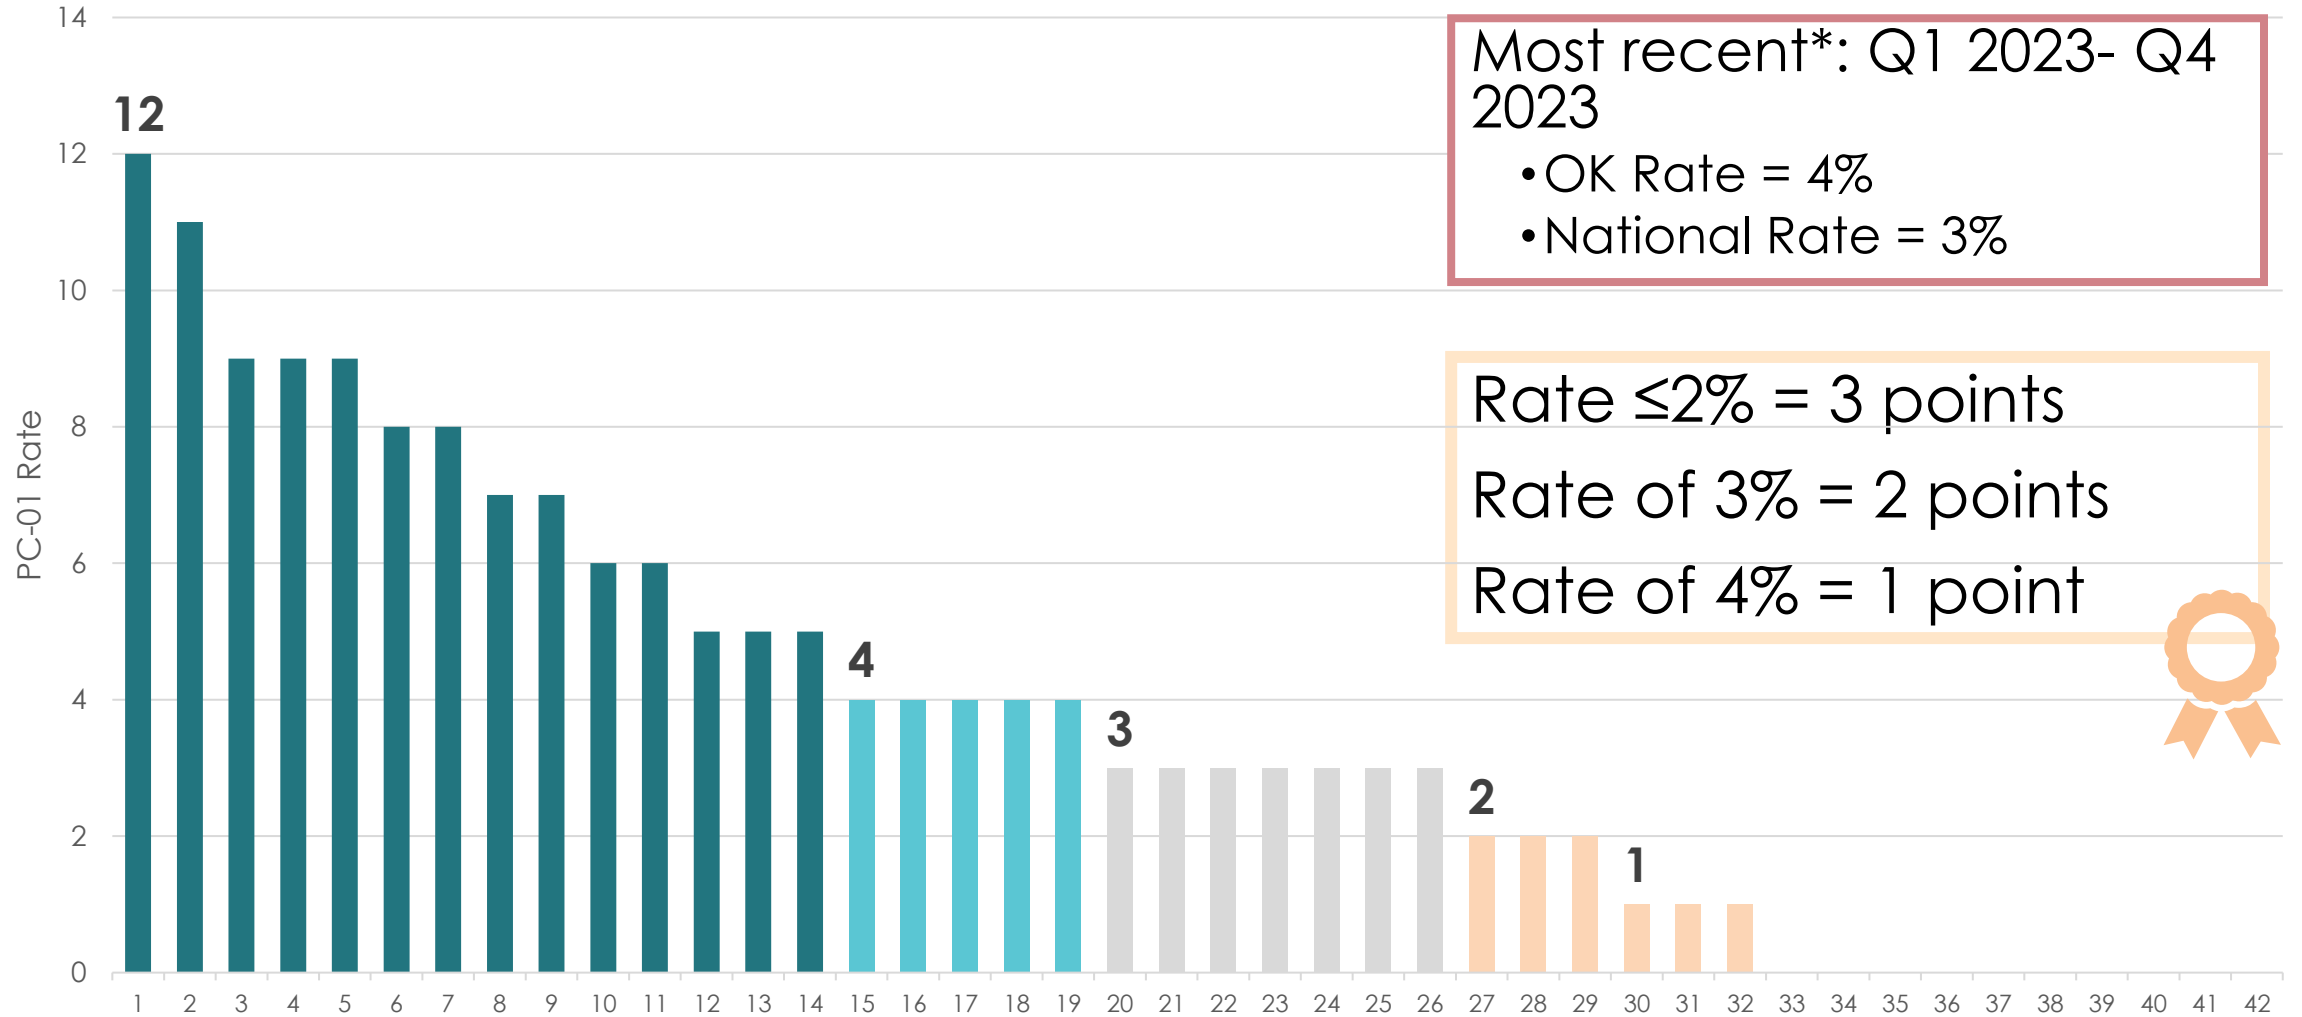

- New Conditions of Participation (CoPs), including organizational and staffing protocols – **effective Jan 1, 2026**
- Updated the quality assessment and performance improvement (QAPI) program
- Emergency services readiness and transfer protocol requirements to better prepare hospitals to respond to OB emergencies – **effective July 1, 2025**

2024 Spotlight Award Criteria

1. PC-01 (Early Elective Delivery)
2. Breastfeeding/Baby Friendly
3. Safe Sleep Hospital Certifications
4. Completion of Q1 2024 OMNO+ Quarterly Survey
5. TeamBirth Participation
6. The Joint Commission Perinatal Care Certification = 3 points
7. Newborn Screening

PC-01: Elective Delivery (CMS)

OMNO+ Hospital Survey

In order to help us obtain a statewide perspective on substance use in pregnancy, OPQIC is distributing this survey to ALL Oklahoma birthing hospitals, regardless of previous participation in OMNO. We are requesting one response from each hospital. Your submission is greatly appreciated.

Quarter 2 2024 (APR-JUN)

Please provide answers as appropriate for this quarter specifically.

Hospital for which you are reporting:

* must provide value

Your email address

Today's Date

 Today M-D-Y

* must provide value

SCREENING FOR SUD

1 Has your hospital implemented a universal screening protocol of patients admitted to OB with SUD?

* must provide value

- Yes, we have a universal screening protocol for SUD
- No

reset

2 Approximately what percentage of your patients are screened for substance use disorder during their birth admission?

* must provide value

- We do not screen
- 1-20%
- 21-40%
- 41-60%
